**Other Skills:** RESTful APIs, CI/CD Pipelines, TDD, Accessibility (WCAG 2.2), Cross-Browser Compatibility, Agile Development

## Experience

**Glactics Development Intern**
**Jan 2023 – Present**

· Worked on full-stack web development using JavaScript, React.js, Node.js, and SQL to build scalable and maintainable applications.
· · Designed and developed RESTful APIs using Node.js and Express, supporting core features of internal organizational tools.
· · Contributed to a calendar management system, handling backend logic, API integration, and data flow optimization.
· · Improved application performance and reliability by implementing ORM-based database management (Sequelize).

## Projects

**QR Code Based File Sharing System**
Designed and developed a QR code–based file sharing system to enable quick and secure file access through scanned links.
· Built RESTful APIs for file upload, download, and sharing using Node.js and Express.js.
· Implemented QR code generation for each shared file, allowing users to retrieve files without manual URL sharing.
· Integrated MongoDB to manage file metadata, access history, and sharing details.

**Inventory Management Web App** |React JS, Node, Express JS, REST API, MongoDB
• Used the MERN stack to develop a feature-rich Inventory Management Web app .
• Implemented secure payment functionality using Stripe.

## Education

**Sharda University**
**Aug 2018** **present**
*Bachelor of Technology in Computer Science* , New Delhi India

## Certification

**DELOITTE TECHNOLOGY JOB SIMULATION BY - FORAGE**
